DATA FOR DECISION-MAKING AND THE MEMBER EXPERIENCE

- See how thoughtful data management supports long-term planning and gain insights into building an org. structure that uses KPIs to drive continuous improvement and member satisfaction.
- Discover how accurate data entry, integrated systems, and consistent processes improve efficiency, billing accuracy, and overall club management.
- Understand the importance of accessible insights for every level of your organization. We'll explore strategies for seamlessly integrating data tools into daily operations and ensuring staff can track and update member information in real-time.

AI AND ITS EVOLVING ROLE IN CLUBS

- Interpret trends in the language AI space
- Examine examples of successful language AI integration into existing software and club operations
- Appraise language AI outputs in real-time

MAKING THE CASE FOR AI

- Understand AI fundamentals and current adoption trends in operations
- Explore strategies to implement AI for better operational management
- Address challenges and prepare for the future of AI in your organization
- Q&A

THE GOLF CLUB OF THE FUTURE

- Secure – Discuss password strategy, multi-factor authentication, and cyber security
- Lean (Cloud-First) – Focus on optimizing on-premises hardware and software
- Flexible – Support mobile access and remote workers
